

IED/EOD Jammer

Model : RCIED-708-300-BDP

General

RCIED-708-300-BDP jammer is a very advanced modular wireless IED/EOD jammer and it effectively blocks the signals of radio transmitters used to remotely activate explosive devices and it is especially designed for portable jammer to defend military convoys and EOD disposal teams against Remote Controlled Improvised Explosive Devices.
NATO Stock Number : 5865000272880

Specification

- (a) Portable IED/EOD Jammer for various operation including Vehicle located
- (b) Automatic fan control system with dual cooler and dual cooling sensor

- (c) Range Min. 100 meters radius depends on BTS Location and Obstacle of the frequency.
Total output more than 900 watts

Individual Bands Operation for most frequencies
From 20MHz to 6,000 MHz.

- (d) 360 Degrees
Omni direction Antennas for

Band	Frequency	Watt
01.	20MHz~100MHz (Walkie-TalkieHF)/RC/RFID)	300w
02.	100MHz~300MHz (Walkie-Talkie-VHF)	300w
03.	300MHz~500MHz (Walkie-Talkie-UHF)/RC	100w
04.	850MHz~894MHz(CDMA)/RC	100w
05.	925MHz~960MHz (GSM-900-2G)/RC	200w
06.	1200MHz~1400MHz (GPS, Sat Phone)/RC	100w
07.	1500MHz~1600MHz (Remote Control)	100w
08.	1710MHz~1990MHz (GSM-1800)	100w
09.	1805MHz~1990MHz (UMTS)	100w
10.	2110MHz~2170MHz (3G,LTE,UMTS)	300w
11.	2400MHz~2600MHz (4G,WLAN, Wi-Fi, Bluetooth)	75w
12.	5700MHz~5800MHz (Full IEEE C Band)	50w

- (e) 50~100 Watt per Band Power out puts
- (f) Dual Power supply (Generator & Rechargeable battery)
- (g) Selectable frequency blocking from 20MHz ~ 6000MHz
- (h) Noise reduction technology with CSS Special material to protect Circuit
- (i) Automatic Circuit cut off using Temperature sensor (80°C) in each band.
VSWR, Over burning/Voltage/Current, RF shielding, EMI Protection.
- (j) On/Off LED Software Control switch in each band
- (k) Built-in Micro controller (NET-823) , Programmable and capacity of making window is available by Laptop.
- (l) Operating Temperature : -13 ~ +149°F (-25 ~ +65°C)

It is subject to change without notice for better quality and capability

IED/EOD Jammer

Model : RCIED-708-300-BDP

Special Features & Major Components

It is a portable jammer for both On-site operation
and
Mobile operation (it can be located on Vehicle temporary/permanently)

**Simple Control
Panel for remote
operation**

**Carrying case for
portable operation**

**Located on Vehicle
(Vehicle Not included)**

**One body
Main system**

Application

Police/Military Convoy protection
IED/EOD squads Protection
Anti-terror units
VIP/CIP protection
Police/Military bases Protection
Other Enforcements protection
